

Fast Lane has been selected as the first worldwide Network Appliance Learning Partner. Under NetApp's Authorised Learning Partner program, Fast Lane is able to deliver NetApp authorised courses – both standard and customised worldwide. Fast Lane has made a large investment in NetApp lab equipment and only uses certified and highly experienced instructors. All courses are packed with practical lessons, featuring extensive hands-on experience that thoroughly engage each student in installation, configuration and troubleshooting activities.

NETAPP TAILORED COURSES

Fast Lane specialises in tailoring courses and curricula to suit your company's circumstances, goals and requirements as well as participants' prior knowledge and skills. Be it a standard course, specialized technology training or a workshop designed for your company, our experts can conduct every type of training session at one of our training centers or on site at your company's premises.

RENT A SPECIALIST

In times when your workforce is stretched thin - during the vacation season, when human resources are devoted to projects, or when you need more peoplepower to introduce new systems – we can help you bridge the gap. Call on us if you need one or several of our specialists to support and operate your storage infrastructures.

CONSULTING SERVICES

Our consulting services help enterprises design and implement forward-looking storage solutions. We provide the support you need to select components and technologies and develop your solution further. We can help you introduce intelligent storage solutions and prepare your IT people to handle the new technology. Our consultation services are there for you every step

of the way. They include:

- Conducting feasibility studies (ROI analysis)
- Planning and designing end-to-end storage solutions
- Selecting components
- Consulting during the implementation phase
- On-the-job training

NETAPP TRAINING UNITS

Training units can be purchased in quantities of 1, 10, 20, 50, 100 and 200's. To place an order please contact your NetApp Account Manager or to redeem your Training Units against courses please contact Fast Lane on info@flane.hu or call us. We will verify the amount and confirm your registration. It's that easy!

NETAPP LABS

We offer our customers a storage solutions training and demo lab environment unrivalled worldwide. Feature the latest devices and technologies, our high-end-labs provide first-rate service, setting premium quality standards for training. Our project consultants can also access our labs from any location, demonstrating complex storage environments in action on site, and enabling customers to test them under real-world conditions.

Bruce MacInnis,
